P.U.C. S.N 18

Letter No . 3745/4-24, dated the 22nd Dec. 1932, from the Inspector of Schools, Coorg and Bangalore.

The P.U.C. contains proposals of the Inspector of Schools for payment of grants to Indian Schools in the Station during 1932-33. The grants earned, which are given in Col. 4 of the statement attached to the P.U.C., are calculated according to revised rule 34 of the Grant-in-Aid Code. The details of the calculation are given in the separate sheet attached to the financial statement of each school.

A comparison of the grants paid last year and those recommended for payment this year shows that, in the case of all schools except Goodwill Girls' High School and St. Aloysius' Secondary School, the grants recommended are less than the grants paid last year. In the case of ~~Annxx~~ Goodwill Girls' High School and St. Aloysius' School the grants recommended are the same as those paid last year, but are, however, less than the grants earned.

Comparing now the grants earned during the year and those recommended for payment, it is seen that the only case in which the grant recommended exceeds the grant earned is that of the R.B.A.N.M's School. The Inspector has given sufficient reasons for special treatment of this

schoo l

School. They may be accepted. Rule 36(2) of the Grant-in-Aid Code provides for such cases.

7. The grants recommended may be sanctioned. Draft submitted for approval.

The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

OFFICE OF THE RESIDENT IN MYSORE.
BANGALORE.
23 DEC. 1932
No. 11504

Sir,

ORDINARY GRANTS TO INDIAN SECONDARY SCHOOLS.

Collection (Y)

1 I have the honour to enclose herewith the financial statements, fee returns and other minor returns of the Indian - Secondary schools for the year 1931-32.

(N)

2 Grants have been assessed this year in accordance - with the revised rules of the Grant-in-Aid Code. The rules fixing the maximum and minimum scale of pay to the teaching staff - came into force in April 1932 and they will be applied when assessing grants next year.

S M. 13 27/-31 (R)

3 A statement showing the grants earned by the Institutions and those recommended for the current year is enclosed. - The method by which the grants have been calculated has been shown on a separate sheet attached to the statement of each institution. The ordinary grants paid in 1931-32 have been shown in col.3 of the statement and those earned in col.4. The grants recommended to each school are shown in col.5 of the statement.

(B) attached to Pun c.

Mss Collin: (Y)

attached to Pun c

4 It will be seen from the statement that St. Joseph's Indian High School, Goodwill Girls' High school and the St. Aloysius Secondary school have earned more than the grants they - - received last year. But I have not been able to recommend the payment of the grants earned by them owing to insufficiency of -

of funds consequent on the cut effected in the budget allotment. I have therefore recommended to Goodwill Girls' High School and St. Aloysius - - Secondary school the same grant as was paid last year. In the case of St. St. Joseph's Indian High School even the last year's grant has had to be reduced by a small amount.

5 In the case of the other three schools, the C.V.S. Sabha and the Wesleyan Secondary schools have earned less than the grant they received last year and I have accordingly recommended that the grant - - earned by them this year be paid. But in the case of the R.B.A.N.M's - High school the grant earned this year is very much lower than the grant paid last year. It appears that in the past the school has just been - able to balance its budget with the grant that has been paid annually and which has varied but little during the last few years. The financial - resources of the school are not unlimited, consisting mainly of the endowment attached to the school by the late Rao Bahadur Arcot Narayanaswami Mudaliar. I am afraid that the management would be in serious difficulties if I recommended only the grant earned by the school. I have therefore recommended Rs. 7520/- which is more than the grant earned but Rs.1000/- less than the grant paid last year. The school will have to economise to this extent.

6 The expenditure will be debited to " Account II Education B. Secondary. -Grant-in-Aid to non-Government Secondary schools - Grant-in-Aid to Secondary schools " in the current year's Mysore Assigned Tract - budget.

7 The advances already paid will be deducted when the final grants are paid.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,
Coorg & Bangalore.

APPENDIX F.

(*Chapter IV, Rule* 37, *Chapter V, Rule* 43 *and Chapter VI, Rule* 45.)

Financial Statement for use in Secondary Schools and Colleges.

The total on the receipt side (excluding A) should agree with the total on the expenditure side.

Receipts side.

1. The amount shown against item A should agree with the amount shown in the fee returns as fees due for the official year.

Expenditure side.

2. Item 1 should be supported by a separate statement in the form given below showing the names of the teachers employed, their monthly salaries, and the total salary paid to each.

3. Item 2 should be supported by a separate statement in the form given below showing the designations of the servants, etc., their monthly salaries and the total salary paid to each.

4. Item 6 should be supported by a statement showing the details of the expenditure and in particular accounting separately for each item exceeding Rs. 10.

Serial number.	Name of teacher or servant.	Designation.	Period for which employed.	Monthly salary.			Total salary.			Salary actually paid.		
				Rs	A.	P.	Rs.	A.	P	Rs	A.	P.
			Total									

I hereby certify that the expenditure shown above was actually incurred by the management and that the salary actually paid is correctly stated.

Date 19 *Correspondent.*

NOTE.—For purposes of this statement "salary actually paid" means the amount actually received by each teacher or servant for his personal use or maintenance, no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under "monthly salary" the real amount being shown under "salary actually paid."

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Financial Statement for use in Secondary Schools and Colleges.

The total on the receipt side (excluding A) should agree with the total on the expenditure side.

Receipts side.

1. The amount shown against item A should agree with the amount shown in the fee returns as fees due for the official year.

Expenditure side.

2. Item 1 should be supported by a separate statement in the form given below showing the names of the teachers employed, their monthly salaries, and the total salary paid to each.

3. Item 2 should be supported by a separate statement in the form given below showing the designations of the servants, etc., their monthly salaries and the total salary paid to each.

4. Item 6 should be supported by a statement showing the details of the expenditure and in particular accounting separately for each item exceeding Rs. 10.

Serial number.	Name of teacher or servant.	Designation.	Period for which employed.	Monthly salary.			Total salary.			Salary actually paid.		
				Rs.	A.	P.	Rs.	A	P	Rs	A.	P.
			Total ..									

I hereby certify that the expenditure shown above was actually incurred by the management and that the salary actually paid is correctly stated.

Date 19 . *Correspondent.*

NOTE.—For purposes of this statement "salary actually paid" means the amount actually received by each teacher or servant for his personal use or maintenance, no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under "monthly salary" the real amount being shown under "salary actually paid."

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

APPENDIX F.

(*Chapter IV, Rule* 37, *Chapter V, Rule* 43 *and Chapter VI, Rule* 45.)

Financial Statement for use in Secondary Schools and Colleges.

The total on the receipt side (excluding A) should agree with the total on the expenditure side.

Receipts side.

1. The amount shown against item A should agree with the amount shown in the fee returns as fees due for the official year.

Expenditure side.

2. Item 1 should be supported by a separate statement in the form given below showing he names of the teachers employed, their monthly salaries, and the total salary paid to each.

3. Item 2 should be supported by a separate statement in the form given below showing the designations of the servants, etc., their monthly salaries and the total salary paid to each.

4. Item 6 should be supported by a statement showing the details of the expenditure and in particular accounting separately for each item exceeding Rs. 10.

Serial number.	Name of teacher or servant.	Designation.	Period for which employed.	Monthly salary.			Total salary.			Salary actually paid.		
				Rs	A.	P.	Rs.	A	P	Rs	A.	P.
			Total ..									

I hereby certify that the expenditure shown above was actually incurred by the management and that the salary actually paid is correctly stated.

Date 19 . . . . . *Correspondent.*

NOTE.—For purposes of this statement "salary actually paid" means the amount actually received by each teacher or servant for his personal use or maintenance, no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under "monthly salary" the real amount being shown under "salary actually paid."

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Instructions for the preparation of the Fee Return.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

APPENDIX F.

(*Chapter IV, Rule* 37, *Chapter V, Rule* 43 *and Chapter VI, Rule* 45.)

Financial Statement for use in Secondary Schools and Colleges.

The total on the receipt side (excluding A) should agree with the total on the expenditure side.

Receipts side.

1. The amount shown against item A should agree with the amount shown in the fee returns as fees due for the official year.

Expenditure side.

2. Item 1 should be supported by a separate statement in the form given below showing the names of the teachers employed, their monthly salaries, and the total salary paid to each.

3. Item 2 should be supported by a separate statement in the form given below showing the designations of the servants, etc., their monthly salaries and the total salary paid to each.

4. Item 6 should be supported by a statement showing the details of the expenditure and in particular accounting separately for each item exceeding Rs. 10.

Serial number.	Name of teacher or servant.	Designation.	Period for which employed.	Monthly salary.			Total salary.			Salary actually paid.		
				Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
			Total									

I hereby certify that the expenditure shown above was actually incurred by the management and that the salary actually paid is correctly stated.

Date 19 *Correspondent.*

NOTE.—For purposes of this statement "salary actually paid" means the amount actually received by each teacher or servant for his personal use or maintenance, no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under "monthly salary" the real amount being shown under "salary actually paid."

Francisco
Auditor.

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

2. In girls'-schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

APPENDIX F.

(Chapter IV, Rule 37, Chapter V, Rule 43 and Chapter VI, Rule 45.)

Financial Statement for use in Secondary Schools and Colleges.

The total on the receipt side (excluding A) should agree with the total on the expenditure side.

Receipts side.

1. The amount shown against item A should agree with the amount shown in the fee returns as fees due for the official year.

Expenditure side.

2. Item 1 should be supported by a separate statement in the form given below showing he names of the teachers employed, their monthly salaries, and the total salary paid to each.

3. Item 2 should be supported by a separate statement in the form given below showing the designations of the servants, etc., their monthly salaries and the total salary paid to each.

4. Item 6 should be supported by a statement showing the details of the expenditure and in particular accounting separately for each item exceeding Rs. 10.

Serial number.	Name of teacher or servant.	Designation.	Period for which employed.	Monthly salary.			Total salary.			Salary actually paid.		
				Rs.	A.	P.	Rs.	A	P	Rs	A.	P.
			Total ..									

I hereby certify that the expenditure shown above was actually incurred by the management and that the salary actually paid is correctly stated.

Date 19 . *Correspondent.*

NOTE.—For purposes of this statement "salary actually paid" means the amount actually received by each teacher or servant for his personal use or maintenance; no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under "monthly salary" the real amount being shown under "salary actually paid."

and that the receipts and expenditure shown in the above statement are correctly stated

Auditor. 21-7-32

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils, or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee-return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules.
